## **DETAILED ACTION**

### ***Response to Amendment***

1. The preliminary amendment filed on 1/24/02 has been received and made of record in the application file wrapper. The specification has been amended, claims 1-20 have been canceled, and claims 21-39 have been added as requested.

### ***Claim Objections***

2. Claims 22-35 are objected to because of the following informalities: In each of claims 22-35, line 1, "A device" should read --The device--. Appropriate correction is required.

### ***Specification***

3. The abstract of the disclosure is objected to because the reference to Figure 1 must be deleted. Correction is required. See MPEP § 608.01(b).

### ***Claim Rejections - 35 USC § 112***

4. The following is a quotation of the second paragraph of 35 U.S.C. 112:

The specification shall conclude with one or more claims particularly pointing out and distinctly claiming the subject matter, which the applicant regards as his invention.

5. Claims 29 and 30 are rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention.

Art Unit: 3761

As regards claim 29, the suctioning period (T<sub>3</sub>) lacks proper antecedent basis.

As regards claim 30, "the sealing engagable cover" in lines 2-3, lacks proper antecedent basis.

### ***Double Patenting***

6. A rejection based on double patenting of the "same invention" type finds its support in the language of 35 U.S.C. 101, which states that "whoever invents or discovers any new and useful process ... may obtain a patent therefor ..." (Emphasis added). Thus, the term "same invention," in this context, means an invention drawn to identical subject matter. See *Miller v. Eagle Mfg. Co.*, 151 U.S. 186 (1894); *In re Ockert*, 245 F.2d 467, 114 USPQ 330 (CCPA 1957); and *In re Vogel*, 422 F.2d 438, 164 USPQ 619 (CCPA 1970).

A statutory type (35 U.S.C. 101) double patenting rejection can be overcome by canceling or amending the conflicting claims so they are no longer coextensive in scope. The filing of a terminal disclaimer cannot overcome a double patenting rejection based upon 35 U.S.C. 101.

7. Claims 36-38 are rejected under 35 U.S.C. 101 as claiming the same invention as that of claims 1, 3 and 4, respectively, of prior U.S. Patent No. 6,398,761 B1. This is a double patenting rejection.

### ***Allowable Subject Matter***

8. Claim 21 is allowed.

9. Claims 29 and 30 would be allowable if rewritten to overcome the rejection(s) under 35 U.S.C. 112, second paragraph, set forth in this Office action and to include all of the limitations of the base claim and any intervening claims.
